Abstract of JP 2003259011 (A)

PROBLEM TO BE SOLVED: To call such a communication party who is always suitable for communication, without taking labor. ; **SOLUTION:** The radio communication terminal 10 automatically lists up registered names or registered telephone numbers from an address table, upon holding the radio communication terminal (portable terminal) 10 by a user 100. Thus the user 100 can know his/her friend being locating near from looking up the list only by holding up the radio communication terminal 10. When the user puts the terminal 10 on his/her ear, the terminal 10 automatically calls for a name (indicated by a cursor) or a registered telephone number selected at this time. Thus the user 100 can talk with the friend automatically connected for communication only by putting the terminal 10 on his/her ear. ; **COPYRIGHT:** (C)2003,JPO
